

The advantages of FASEP Balancing System

3 Sensors System

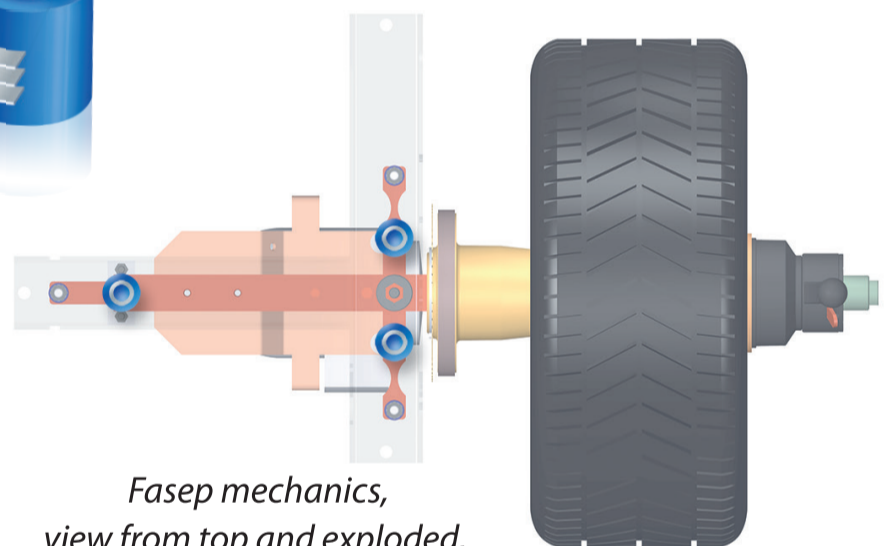

for unbalancing measurement

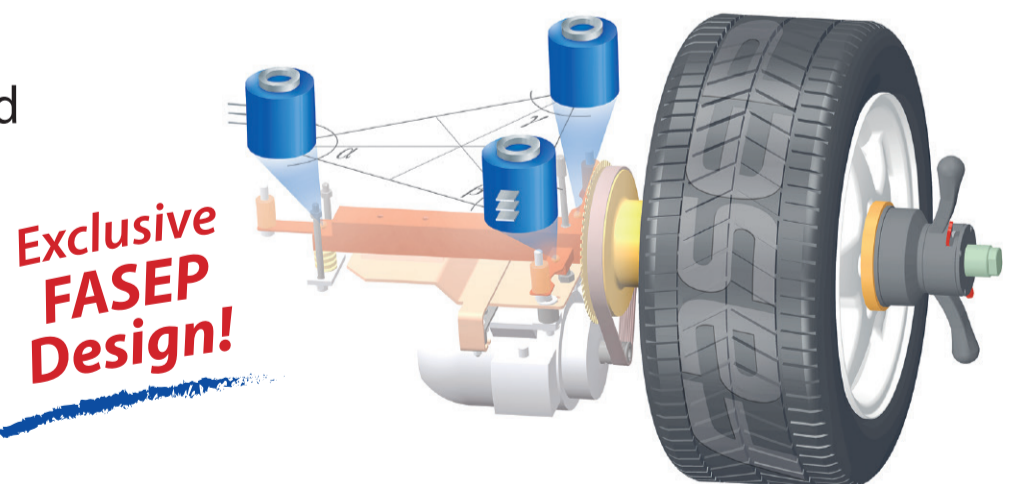

Ideal system

**TRI
SENSOR** 

- **NO** no need of **mechanical ties**
- **YES** it is **stable by itself**
- **YES** the centrifugal force goes completely **through the sensors**
- **YES** the unbalance is **completely** measured
- **YES** with each type of wheel, also of large size or width, **results are always perfect**

Fasep mechanics, view from top and exploded, with the 3 sensors clearly visible.

FASEP Wheel Balancing System
TriSensor + IFS: simply incomparable!
